universal REMOTE CONTROLS

With RCA Remotes, you're in control. Choose from one of the basics for simple entertainment navigation to one of the high-tech home theater series of remotes that offers personal programming features, macro keys, and LCD screens with control of up to 8 devices.

When you want "The Works"... Sit back and let the RCA Learning Remotes take care of everything. Learning keys conveniently copy functions from your original remote, macro keys control your entire home theater system with the touch of one button, and LCD screens allow clear, savvy navigation. Now available in platinum finish! RCA Learning Remotes...smart remotes, simple to use.

RCA Remotes generally require no set up when used with RCA products and are conveniently programmed for easy set up with other brand names. All remotes include an RCA limited 90-day warranty. Cool looks with the hottest technology. RCA Remote Controls...a crystal clear choice.

universal ANTENNAS

Antenna sales will soar as digital technology becomes more commonplace, allowing more channels and better reception. Offering a wide range of reception options, with equally varied price points, RCA Antennas meet the needs of every consumer. Choose from traditional indoor and outdoor models for basic reception, to the low-profile amplified models that have an easy-to-install, out-of-sight design and include remote controls. Also a hot seller, RCA Omni-Directional Antennas. These boost VHF, UHF, and FM signals, and include DBS compatible models that are digital ready. For quality reception, RCA Antennas provide the options.

TELEPHONE HOOK-UP

RCA is the one-stop brand for all telephone hook-up needs. Choose from a complete selection of cords, couplers and adapters, modular jacks, and accessories–all available in a variety of colors to coordinate with any decor, and all including a limited lifetime warranty. Cordless telephone antennas are among the products offered. (See Rechargeable Battery section for cordless phone batteries.) RCA 6 Conductor hook-up meets the demand for multiple household phone lines. For computer data applications, RCA developed the comprehensive Category 5 line. Newly introduced is RCA's Category 3 line; it's great for cost-effective multiple data and voice transfer with computer applications.
